Abstract

Bone graft is widely used as bone augmentation in dentistry. Anadara granosa shells contain calcium carbonate can be used as bone graft. Hyaluronic acid which is abundant in Stichopus hermanni can be used to increase osteoconduction and osteoinduction. The aimed of this research to determine the combination of Anadara granosa shells and Stichopus hermanni gel on osteoblast-osteoclast and blood vessels in bone healing process. 25 male wistar rats were divided into five groups, that were control, treated with bone graft derived from Anadara granosa shells (AGs), and another were treated with the combination of Anadara granosa shells and Stichopus hermanni with concentrations of 0.4%, 0.6%, 0.8% (AGSH1,AGSH2,AGSH3). All rats were intentionally defected on their right femur sized a half-diameter of a round bur. Those rats were sacrificed on day 14th, and their femur in the transversal side was cut continued with Haematoxylin eosin staining. The number of osteoblasts-osteoclasts and blood vessels were measured and statistically analyzed ($p < 0.05$). Data analyzed showed significant differences between groups for osteoblast, control-treatment groups and AGs-AGSH3 for osteoclast and blood vessels.

Combination of Anadara granosa shells and 0,6% Stichopus hermanni gel most effectively increased the number of osteoblasts, and blood vessels, and decreased the number of osteoclasts on the bone healing process of femur.

Experimental article (J Int Dent Med Res 2020; 13(2): 525-532)

Keywords: Anadara granosa shells, Stichopus hermanni, osteoblast-osteoclast, blood vessels, bone healing.

Dear Dr. Adanir,

I hope you are doing well. A few days ago, the production team (Mr. Gogoi) corrected our manuscript and We had some improvements to make. However, when I asked about the continuation of the repair, there was still no answer.

Is there no problem with that, or is there something else I need to do?

We thank you for your attention and look forward to hearing about the continuation of publishing our articles.

Welcome to the Thieme Medical Journals Production eProofing System, which allows authors to receive the page proofs of their articles as electronic files. eProofs are PDF files generated from the typesetting of your article. You must have Adobe Acrobat Reader or Acrobat Exchange software installed on your computer to use PDF files. Acrobat Reader is a free download from the Internet. If you do not have Adobe Acrobat Reader or Acrobat Exchange installed on your computer, go to <https://ind01.safelinks.protection.outlook.com/?url=http%3A%2F%2Fwww.adobe.com%2Fprodindex%2Facrobat%2Freadstep.html&data=05%7C01%7Cthieme.j%40thomsondigital.com%7Cedd4941356f34626fc7d08dad84330fc%7Cbfe0633a6c7947d5b23e9aea466111c7%7C0%7C638060080330920795%7CUnknown%7CTWFpbGZsb3d8eyJWljiMC4wLjAwMDAilCJlQjoiV2luMzIiLCJBTiI6Ikh1haWwiLCJXVCi6Mn0%3D%7C3000%7C%7C%7C&sd=LZFDn5j023y5NqyCZAhpBtRk%2B%2Bm6TzFackCPBqsLzMA%3D&reserved=0> to download the newest version of the software.

To eProof your article:

1. Download the Article Page Proof file and eProof Support Document by double-clicking on the link below.
2. You will be asked for a username and password to open the Article Page Proof file. This information appears at the top of this e-mail message. Both the username and password are case sensitive.
3. Save the downloaded file to a local directory on your computer's hard drive.

4. Open the file with Adobe Acrobat Reader and print it out or use Tools>Comment & Markup to access editing tools.
5. Proofread the proofs for information accuracy. Double-check figures and tables. Be sure to respond to all queries on the page proofs. All queries are listed on the last page of the proof. Use a pen to mark changes directly on printed proofs; please remember to write as clearly as possible. When reviewing your page proofs please keep in mind that a professional copyeditor edited your manuscript to comply with the presentational style requirements for the journal.
6. Fill out and sign all forms.

Your article production number is noted at the top of this message, please refer to it on all correspondence.

You have three options for returning your marked proofs and forms (within 72 hours, please):

*Option 1 (preferred): Return your materials via email to Anant Arora, Project Manager, anant.arora@thieme.com.

*Option 2: Return your materials via fax to: Anant Arora, Project Manager, Fax: +91-120-4556649.

*Option 3: Return your materials via overnight mail to: Anant Arora, Project Manager, Thieme Medical and Scientific Publishers.

You will receive a confirmation email within 48 hours of receipt of your materials.
